

Dear Sir or Madame, I have been a listene of K-LOVE for three years and would not know what to without it. It has helped me through many troubled times like nothing else can and I know there are many others throughout my community that feel the same way and would be devistated if something were to happen to our station. I believe that K-LOVE is a terrific servic to our community;as something positive and encouraging in this time when the economy has almost everybody struggling to meet daily needs, also many have family or friends overseas and needing a way to calm themelves, If nothing else,it certainly reduces the tendency toward road-rage. Thank You

Chris Brown
